

# atc Instantaneous Water Heater

Compact Design for Point of Use Applications

Copper Tank

Frost Protection Valve

Thermal Cut Out

# atc Hand Wash 3.1kW Instantaneous Water Heater

The **atc** Hand Wash provides a simple solution to local hand washing situations. Easy to install, the **atc** Hand Wash is compact and effective. It is energy efficient, using only the hot water required by the user.

Importantly it is independently safety approved by BEAB.

It is ideal for applications such as Portacabins, Shops, Garages and many more.....

## KEY FEATURES

- Fitted with Copper Tank
  - Designed for Longer Life
  - Prevents Bacteria build up
  - Acts as a natural Steriliser
  - Less Leaks from Copper Tanks
- Fitted with Frost Protection Valve
- Thermal Safety Cut Out
- Micro Switch for Accurate Control
- Pilot Light
- Swan Neck Spout with Water Spray Head
- Energy Efficient-Only heats water when operated
- Saves Water
- External knob for Operation
- Compact Design - Fits virtually anywhere
- Includes installation Fixings

**BEAB**  
Approved

## TECHNICAL DATA

| Product Code     | HW3                 | IP Rating            | IPX4               |
|------------------|---------------------|----------------------|--------------------|
| Power (W)        | 2605-3100W          | Inlet & Outlet Dist. | 90mm apart         |
| Voltage (V)      | 220-240V            | Dimensions (mm)      | 220x170x90 (HxWxD) |
| Current (A)      | 11.8-12.9A          | Weight (kg)          | 1.6kg              |
| Rated pressure   | 0 bar (0 MPa)       | Safety Approval      | BEAB               |
| Water Connection | 1-7bar (0.1-0.7MPa) | Approvals            | Nemko, CE, RoHS    |
